

Junior Technical Consultant

Microsoft, cloud & Infrastructure, no experience, developer
Belgium

technical consultant ('tek.nɪ.kəl kən'sʌl.tənt) *noun* **1.** a true techie, that swiftly converts concepts into `<code/>` **2.** plays nice with both humans and computers. **3.** a species known for its drive and perseverance; often surrounded by a pack of teammates.

What would your role be?

As a technical consultant at delaware, you'll be involved in the **entire consulting cycle from A to Z**; from analysis to implementation and support. However, **your main focus will obviously be on the technical part**, but you'll do more than just that. You'll work in close collaboration with the customer to **understand their needs** and lead them towards **new technological heights**.

Here we'll cover the basics of what it's like being a technical consultant at delaware in general. Already got your mind set on a specific career? Our technical consultants operate in **different areas**: [.NET development](#), [SAP development](#), [Integration Engineering](#), [Cloud & Infrastructure Engineering](#).

Your development path at delaware

When you first start your job at delaware, we don't expect you to be an expert in our specific technologies. Patience you must have, my young Padawan!

- To kick off your delaware career, you'll receive a few weeks of specific, **small-group training**. You'll not only learn more about the tech we work with, but you'll also get an introduction to consulting skills.
- Technology doesn't stand still, and neither do you! We provide training to keep you **up to date with the latest technologies**.
- If you want or need additional training, the **delaware academy** is there to help you with your **professional development**.
- At delaware you're never on your own. You'll get a lot of support from your team members, including a **personal mentor**.

As a junior consultant you'll typically start in **September or March**, but we are always open to meeting new people throughout the year.

Wait, there's more!

At delaware, we...

- Have a pretty **unique work environment and culture**. The #peopleofdelaware live and breathe the five [values](#).
- Aim to be as **approachable** as possible. Just tug at our sleeves and we'll answer any question you might have. Don't worry, we've all been there!
- Are **flexible** – but no, don't ask us to do the splits. Our work can take us anywhere, from the different delaware offices to those of our customers!
- Know **there's more to life than work**. We organize team events, a Christmas Drink or the occasional sports day: Nothing better for team spirit than getting sweaty together, right?

- Offer a **competitive benefits package** – but you'll discover that later!

Don't believe us? Have a look at our [blog](#) and scroll through our [Instagram page](#).

What do you need to join us?

Some of the things you'll need to get yourself a spot at delaware:

- It's in our (and your!) best interest if your personal **values** match ours. Do you see yourself fitting into our company **culture**?
- With your **enthusiasm** and **ambition** you'll truly **make a difference**, both for our customers and for the company. Ready to become a consultant?
- You'll need a Bachelor's or Master's degree in **IT**.
- Preferably you own a driver's license B or you will own it by the time you start
- At delaware, we walk the talk. And we talk a lot. Can you communicate fluently in **Dutch or French** and **English**? It's how we connect with clients and co-workers.
