

Full stack Developer

Apply now

Accenture is always aiming to provide clients with customized solutions using the latest technologies thus each project can be radically different and require a versatile skillset from Spring to cloud microservices and automation. Depending on client & projects, you will have the opportunity to work with the following tools: latest version of Java , Spring, REST, microservices architecture, CI/CD Automation, DevOps, Docker, No-SQL & Big data, Security, Mobile, VR & AR. On top of that we are (premium) partners with many technology providers like Oracle, Splunk and Hashicorp plus all major cloud operators and even offer in house trainings in each of these areas.

- ✓ Design & development of high-quality software in accordance with the technical/client's needs

Your team

Accenture Technology leverages design thinking, industry insights and the latest digital methodologies to help clients innovate, grow and improve their businesses. Our expertise, capabilities and experience mean that our clients (including some of the biggest brands in the world) trust us to find the right solutions for their needs. Together with our talented international colleagues, we focus on connecting the needs of businesses with the new possibilities that come with technological progress. Because that's where the real challenges are: inventing and testing things that have never been tried before, getting new applications ready for roll-out, and ultimately guiding clients to select and implement the right technologies to transform their businesses.

Your background

- ✓ Minimum three years of experience as Full-Stack developer
- ✓ Working experience of JavaScript, HTML, CSS, Web development technologies and tools
- ✓ Working experience on frontend frameworks: Angular (at least 1 year)
- ✓ Working experience with relational databases (e.g. PostgreSQL, MySQL, Oracle)
- ✓ Working experience with (micro-)service oriented architectures
- ✓ Working experience in agile software development environment (Scrum, Kanban)
- ✓ Familiar with DevOps methodology and related tooling
- ✓ Experience with NoSQL databases is a plus (e.g. MongoDB, ...)
- ✓ Experience with containerization + orchestration platform(s) is a plus
- ✓ Experience with cloud-native technologies is a plus (e.g. Lambda, ...)

- ✓ Experience and certification(s) with AWS is a plus
- ✓ Motivated personality and ability to work in self-organised teams
- ✓ Strong verbal and written communication
- ✓ Fluent in English

Our offer

Accenture is an incredible place to work - and keep learning. By joining us, you'll become part of a global company with a world-class brand and reputation. Besides the work we do for our clients, we're really proud of our vibrant, diverse workplace culture: we believe in openness and honesty, fairness and equality, common sense and realism. We want to get to know the real you and help you explore and grow - whatever it is you're great at. So you will always have lots of learning opportunities (formal and informal) to improve your role-specific skills and expertise.

Besides our high-profile, challenging projects and our nurturing work environment, we offer excellent employee benefits, including:

- ✓ 13th month + holiday allowance
- ✓ 20 + 12 holidays
- ✓ Laptop and smartphone
- ✓ Hospitalization insurance and extensive group insurance package
- ✓ Bonus program
- ✓ Training & learning opportunities
- ✓ Green mobility program: e-bikes, public transport, bike 2 work allowance,...
- ✓ Flexrewards: decide on your rewards package with our flexible benefits tool
- ✓ Discount program: get discounts at your favorite (online) shops
- ✓ Employee shares purchase plan
- ✓ Eco-cheques
- ✓ And many more!
